August 11th, 2018 Meeting Minutes

Meeting Called to Order by President Joe Waltz with 71 enthusiasts in attendance. No one took a knee as Jimmy Crawford led the pledge. Miles Demster returned to perform his audio-visual magic.

Visitors: Russell Raymond, a retired Delta A&P who now teaches at MIAT (an outstanding A&P school!) and Tom Ball, Conroe P-51 owner and pilot.

Membership Report: Humes reports 147 paid members.

July Meeting Notes: Approved without objection.

Treasurer's Report: Guice reports a beginning balance on 7/1/18 of \$4422, income \$402, expenses \$226, resulting in a balance of \$4598. No major expenditures are anticipated for the rest of the year.

Airventure After-Action Review:

- 50 Year Chapter 302 Award received at OSH and presented to Ray Coker at meeting.
- Over 600,000 attended during the week, including about 40 of our members.
- Waltz enjoyed the toy show so much he bought non-aviation items including shoe inserts, a whole body massaging chair, and wrinkle remover cream.
- Our Chapter dinner Wednesday included 33 members.
- The story of "Bear Force One" was described by Irvine (also chronicled in newsletter). Great adventure! 10 of the Montgomery H.S. students who built the plane attended Airventure.
- Greg Smith and Ronda Ellisor shared their restoration of a C-185 on floats. Awarded Best Amphibian at OSH! Congratulations.

Chapter Video: Story of AutoGyro kit aircraft and EAA's North American P-64.

Project Reports: *(Email Miles Demster large file pictures of your project before each meeting.)*

- Mark Haskell (Zenith 601HD) Working on aft fuselage, steering rods, and wing structure.
- Mark Ciaglia (RV-10) Installing disco lights (Zip Tips) on wings, fuel lines, and closing wings!
- Alan Archer (RV-10) Just returned from Evoke paint shop in Gadsden, AL. Looks amazing!
- Jay Strepman (RV-7) Finishing avionics and panel. No glitches during smoke test!

First Flight Award Plaques: Peter Lammars for his outstanding RV-7A, Steve Havemann/Logan Dent/Rich Maugans for their beautiful RV14A constructed in just 20 months, and Tim Knapp for his 914 powered Cavalon AutoGyro he built at the dealership in Blum, TX.

Operations/Safety: Jimmy Crawford presented information regarding the new AC-66B recommending traffic pattern procedures at non-towered airports. No real changes, but much more detail.

Hints for Homebuilders Video: How to interpret compression test results.

Events Report: Fly-out to Weiser Air Park for lunch. For other activities, check Pache's Events Page on the EAA302.org website.

Young Eagles: Goebel relates YE accomplishments: Irvine's grandson passed his written test using the YE Sporty's Private Pilot course; Ashley Christian just obtained her Private Pilot license (on her 17th birthday) three years after Irvine gave her a YE flight on her 14th birthday. Good to see results from our YE efforts. Also, Mike showed the photo display of CXO Young Eagles that he prepared for the Airventure Blue Barn venue. He is anticipating another YE event this fall.

This Day in Aviation History: August 1961: A Republic F-105 Thunderchief lifted the largest load ever carried aloft by a single-engine aircraft when it carried a payload of over 14,000 pounds.

Announcements: --Challenge Air event scheduled at CXO November 3.

- Chris McMartin (leader of the Woodlands HS JROTC) has been working with our Chapter's YE program the last several years. He has overcome a medical issue and now has his Private Pilot License. His 14 year old YE daughter just took her first official flight lesson. Congrats to both!
- Miles Demster just got his tail-wheel endorsement.
- Becky Lutte also was recently endorsed for tail-wheel operation.
- Becky's husband Steve participated in the Airventure airshow in his RV-7!
- Rich Jankowski nearly took first place in the 429 mile Airventure Cup X-C Air Race (RV GOLD Class) in his very slippery RV-10 with an average speed of 201.64 MPH.

New Business: Jack Bailey solicited applicants for the FAA Master Pilot and Master Mechanic Awards.

Adjourned to fly to Weiser or drive to McKenzie's BBQ to discuss officer impeachment.

EVENTS COMMITTEE UPDATE

Keith Pache 713-412-7010, pilotpache@aol.com

1) 10:00-11:30am Sat. September 8th Chapter Meeting (Galaxy FBO).

2) 11:30am-4:00pm After our Sat. September 8th Chapter Meeting: Fly-out to the re-opened Southern Flyer Diner at Brenham Municipal 11R (see newsletter flyer for details)!!

3) 7:00-8:30pm Wed. September 12th IMC/VMC Club Meeting (Galaxy FBO). Keith & Mike will lead an informative presentation/discussion about Enroute Charts and Holding. Bring your flying stories and lessons learned – the meeting is geared to be organized hangar flying, so the more participation & sharing the better!!

4) Events Calendar: Here's a partial list of upcoming events. You'll find many more (with working hyperlinks) by clicking on our website Flying Events tab (typically updated Thursdays): <http://www.eaa302.org/>

ANOTHER YOUNG EAGLE BECOMES A PILOT

Keep this in mind, then volunteer to help YE's this fall

It was in early 2015 when EAA 302 member Joe Christian brought his 14 year old daughter Ashley to KCXO to take a Young Eagle ride. She rode with Denny Irvine in a Cessna 152, and they zipped around Lake Conroe and came back for a landing. She must have liked it, because she came back for another YE ride during a later event.

Fast forward to August 10, 2018, Ashley's birthday! What do most teenagers do when they have a birthday—hang out with their friends? She scheduled a ride with local Designated Pilot Examiner Wanda Collins and took her Practical Test for Private Pilot. And Passed! How many kids can say that?

She was met at the door by Family, friends and local pilots with a round of applause, birthday cake and presents. This will be a day which she remembers for the rest of her life.

WHO'S WHO AT 302

Back in the early 1960's, young Tim Knapp (17 years old) had a filling station job in West Covina, California. His boss was more like a dad to him, and since the boss owned a Waco-10, they often talked about flying. They ended up arranging one of those \$5 Intro Flights in a Cessna 150, and Tim was "hooked".

Tim soloed in 1966, but as he progressed through college—remember these were the Vietnam years—the Army came calling in 1967. They offered him the Army Flight Program since he had some time. Since that looked better than being drafted, Tim joined and went off to Helicopter School. He eventually was checked out in "Hueys" and was sent to Cu Chi, Vietnam.

He was assigned to the 25th Division, A Company. They were called the "Little Bears", and his aircraft was number 419. (Hold on to that tidbit till the end of the story). Luckily, Tim was assigned primarily resupply and command/control missions—not a gunship. On return to the States, he upgraded from CW-2 to Lieutenant, Captain, then 6 & ½ years in the Guard.

Rather than tough it out for a 20 year retirement, Tim decided to strike out into General Aviation. Ferry flights, instruction and charter turned into Learjets, Lockheed Jetstars, Gulfstream II's through 550's, a stint at Presidential Airlines out of Dulles, and finally flying a Gulfstream 4 for Farouk Systems here in Conroe.

However, that past experience in rotorcraft kept calling to him. Then it happened. Fellow EAA 302 member Jason Knight shows up at a meeting with a White Autogyro "Cavalon". Tim couldn't keep his mind off of it. Finally, he decided to purchase one. You build them at the factory with expert help and do all the Phase 1 flyoff hours there and then bring it home.

This is one slick bird, with a powered rotor, short takeoff and incredibly short landing distance. It will do 80 Knots true airspeed, so Tim flew it all the way to Oshkosh Airventure and back. It sat on display at the Ultra-Lights Field. 2 days up, 2 days back, 28 flight hours!

Now—remember that tidbit above? Tim requested and received the tail number N419 LB—the same as his old company of the "Little Bears". He's hangared on "the Hill" in Building 44-D-4. Drop by, see the Cavalon, and thank Tim for his service in Vietnam.

Ray Coker was the second oldest 302 member at the meeting and was presented the 50 yr plaque

Greg Smith shows off his Airventure Award for "Best Amphibian".

Logan Dent, Steve Havemann and Rich Maugans for a RV-14A built in 20 months

AWARDS AWARDS AWARDS

Pete Lammers gets his Builder's Award His RV-7A

Tim Knapp accepts his award for completing an Auto Gyro Cavalon—419 "Little Bear"

50 CENTS OFF PER GALLON

Remember, this deal is good for the rest of the summer.

Enjoy a meal at the Black Walnut on Saturday or Sunday and keep your receipt.

Show the receipt to your fueler, and you will receive 50 cents per gallon off of your fuel bill. So come have breakfast with us before the next meeting.

BRENNHAM REOPENS FOR BUSINESS

Best news Ever! Jack and Janice Hess will open the "Southern Flyer" for business on Friday through Monday from 11:00 to 3:00. Same menu and décor as before, but no fried foods.

To help sustain the restaurant, Jack requests that you buy fuel. You can leave a fill-up order when you land, and the truck will fill your a/c for the same price while you eat.

Foul play suspected in fatal crash near Conroe Airport

By Jennifer Summer
STAFF WRITER

The Conroe Police Department continues to investigate a single-vehicle crash near the entrance to the Conroe-North Houston Regional Airport that killed a man early Friday morning.

The Montgomery County Hospital District received the call at approximately 5:50 a.m. where it was reported the driver identified by police as Allen Todd Johnson of The Woodlands crashed into a concrete pillar near the intersection of Airport Parkway and Airport Road.

"Upon officer's arrival, the driver was deceased," Conroe Police Lt. James Kelemen said. "Evidence at the scene suggested possible foul play was involved."

Kelemen confirmed the body was transported to Montgomery County Forensic Services for an autopsy. They are awaiting the results to release a cause of death.

It is believed Johnson was driving a '60's-'70's model Corvette.

Conroe PD, MCHD and the Conroe Fire Department remained on scene for several hours to investigate the accident.

"Per the caller, he believed the driver was beyond any help," MCHD stated. "When they arrived on scene, MCHD medic unit 10 advised that the driver had suffered injuries incompatible with life."

If anyone has any information related to this case, contact Lt. James Kelemen at 936-522-3272 or Det. Bret. Irvine at 936-522-3257.

No other information was available.

Challenge Air For Kids Fly Day

**Saturday, November 3, 2018
Conroe-North Houston Intl. Airport
10260 Carl Pickering Memorial Dr.
Conroe, TX 77303**

Free for all children and youth with special needs!

Featuring special guest: **JESSICA COX!**

Jessica is recognized internationally as an inspirational keynote speaker. Born without arms, Jessica now flies airplanes, drives cars, and otherwise lives a normal life using her feet as others use their hands. She holds the title of the first person without arms to earn a black belt in ATA Martial Arts and the Guinness World Record for being the first armless person in aviation history to earn a pilot's certificate. Convinced that the way we think has a greater impact on our lives than our physical constraints, Jessica chose to pursue a degree in psychology at the University of Arizona. Since then she has traveled to 20 countries on six continents sharing her inspirational message.

AN INVITATION FROM WACO AND EAA 59

Phil Perry, who used to be a member of EAA 302, now is President of Waco's Chapter 59. He has invited Joe and all of Chapter 302 to join them on a final flyout for 2018. Destination—Hot Springs, Arkansas. Please see his letter below for details:

Hello chapter folks,

This has been an amazing year for getting outside and having some fun like we did at Big Bend and Palo Duro Canyon, so we are going to do it one more time before 2018 ends. This time we are going to be doing it in Hot Springs, Arkansas! This trip is shaping up to be a memorable one as Hot Springs is naturally gorgeous and also an interesting destination with museums and activities for everyone; but also for the projected fall colors that should be enveloping mountains around that time.

Hot Springs National Park is a great destination as you can stroll down the Historic Bath House Row, experience the hot water rolling from the natural Hot Springs, and tour the museums and bath houses - many of which have been preserved like it was still 1925. Our chapter has rooms blocked off at the Clarion Resort on the Lake starting on October 19 and running through October 21st. The room rate is \$99/nite.

If you would like to join us you need to do two things:

- 1) Let me know so I can put you on our list as we communicate and make plans. (philperry9@gmail.com)
- 2) Call the hotel and book your room at (501) 525-1391.

If you have any questions, please let me know. Whether flying or driving, I hope you join us! I know we have members doing both.

Phil Perry
EAA Chapter 59 - President

EAA Chapter 302, Inc.
Joe Waltz
142 Wedgewood Drive W
Montgomery, TX 77356-8370

Dear EAA Chapter 302, Inc.,

The EAA Air Academy celebrated its 35th Anniversary this year and it is because of your support that we are able to provide an excellent aviation camp for young people. On behalf of the EAA Air Academy we would like to say thank you for helping young people from around the United States and the world attend the EAA Air Academy 2018 camps. This summer over 275 young people were able to experience one of our EAA Air Academy camps. Your generosity is truly appreciated. We appreciate your involvement in the Young Eagles program as it helps young people experience the thrill of flight.

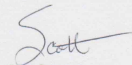

Enclosed are thank you note(s) from participants your chapter has assisted financially. If you have any questions about the EAA Air Academy camps, please contact us at airacademy@eaa.org.

We have also enclosed the 2019 Chapter Reservation Form in case you are interested in sending another young person to camp. We are accepting reservations at this time.

Thank you again for all you do for EAA, the Young Eagles program and the EAA Air Academy!

Sincerely,
Experimental Aircraft Association, Inc.

Bob Campbell
Museum Director

Scott Cameron
EAA Air Academy Camp Supervisor

LETTERS FROM THE EAA AIR ACADEMY

EAA Chapter 302 received the two letters you see here regarding our candidate we sent to Air Academy 2018. It is fair to say that the Chapter has definitely had an impact on another young person's life.

Its not too early to think about doing this again in 2019. If you think you have a deserving student, please have them write a letter or attend a meeting and compete for this scholarship.

Further, if we were to bring the Chapter membership up to 200+ current participants, we could send both a boy and a girl next year.

Picture

Available

Dear EAA Chapter 302,

I'd like to thank everyone involved with sending me to the EAA Air Academy. Even though AirVenture hasn't begun, this has been the most fun I've had in a very long time.

Between classes taught by an aeronautical engineer, working with sheet metal, and riding in a helicopter for the first time, there's hardly been a dull moment. Being here has really reignited my passion for aviation, and I plan on finishing my glider training as soon as I get home. I'm even considering coming back here as a counselor in the future.

Again, I can't thank the chapter enough for making this possible. When I first heard about the camp, I had some doubts, but I couldn't have imagined this in my wildest dreams.

Sincerely,
Jonah Beale

We now meet in Galaxy FBO's building on the South Side of the Conroe-North Houston Airport. Use the South Entrance, 1st floor. Meetings start at 10:00 AM.

You cannot access the FBO by the old Airport Parkway. You need to use Loop 336 and turn at Hawthorne Drive. This road has an Airport Entrance sign which mentions Galaxy FBO and the Black Walnut Restaurant. This is just southeast of the Roller Skating Rink.

See you there.
