for our April 24th
Fly-In.**

**Perhaps a
FLY-OUT after
the meeting.
Fly to Hilltop
Lakes for lunch
and some hangar
flying too!**

Young Eagles ~ Share The Dream

Hangar Talk

Good News!

Butch Carr's doctor says the cancer is **GONE!!!** Medical reports just don't get any better than that! Butch started treatments in September 2003 at M.D. Anderson Cancer Center in Houston. Now he has the "all clear." Wonderful!

Richard Kardell is recovering from his surgery. He expects to be flying again just as soon as the healing is complete. He has already been out to the airport.

Shirley Park just went on her first dual cross country to Brenham, Lufkin and back to Conroe. Several RVers including Jim Odom were having lunch at Lufkin. She is practicing using the E6b, but isn't as fast as Dennis yet. Bill even offered to wash the underside of the RV6 for her! Now that is a supportive husband!

Mike Singleton snapped the above photo of Don Brewer piloting his GN-1 Aircamper last week as they flew out for lunch. Don's airplane is For Sale, so if you'd like some open cockpit fun flying check it out.

Doug Prior (above) had planned that we Fly-Out after our March 13th meeting to Hilltop Lakes. However, weather looked better to the northeast, so 5 planes (8 of us) flew to Lufkin for lunch. They make a very good hamburger (about 1/2 lb.) and have homemade coconut cream pie! They have also started a 4th Saturday Fajita Fly-In. Greg Young reports the fajitas are "outstanding, ...a must for any serious lunch flyers."
