AN EAA NEWSLETTER

PRESIDENTIAL GARE

At Last...At Last...for those of you who missed the last meeting, it is now official. We are a recognized non-profit chapter of the E.A.A. registered with the State of Texas. Our incorporation papers were received just prior to the last regular meeting.

Progress report--Luscombe wings

Project completed, wings delivered, check received. Along with the many who helped with the project, a few deserve special thanks...Hank Aldrich, Lou Boulden, Jim Goebel, and Bill Goebel for their technical assistance.

Congressman Bill Archer will hold a meeting Tuesday, July 8, 7:00p.m. at the West Loop Holiday Inn to discuss user taxes which support the Airport and Airway Trust Fund. Further information is available by calling 226-4941. It's your money fellow aviators!

We wish to welcome Tony Manaco into our chapter. Tony's really a good ol' boy...Now if someone could just teach him that in a normal flying configuration the wings of a C-150 belong above you and not below you.

Attached you should find a revised membership list. If you find this list incorrect, please notify Stella at the next meeting.

Please remember that these hot days are very hard on airplanes and their performance envelope. On a recent cross-country in my C-150 at 2500 MSL I decided to climb a little higher in an effort to get on top of a low scattered cloud layer. Adding full power and pulling the yoke back to maximum rate of climb speed only yielded about 250 r.p.m. I'm glad I didn't have to climb over any 5000ft. mountains this time of year.

Due to the fact that this weekend is July 4th, the meeting date is changed to July 12.
