## Chapter 302 ~ Conroe, TX

**"Thanks" to all who participated!  
Our Fly-In was a success!**

Dick Kardell's shiny new RV-8 is looking good.

A pair of Deuces. These 2 Bakeng Deuces drew attention. At left is a visiting aircraft. At right is Mike Purinton's with Mike in the back seat ready to give Don Brewer his first Bakeng Deuce ride. It was a great day to fly, nice weather.

Our own aviation artist, Willis Cole, Jr. displayed his excellent art. It's lunch time! Mike Purinton and Larry Perryman are serving the hot juicy hamburgers as someone sneaks one straight from the cook, Mike Brown. Good work men, they were great!

**Young Eagles ~ Share The Dream**

# ***EAA 302 is an Active Group!***

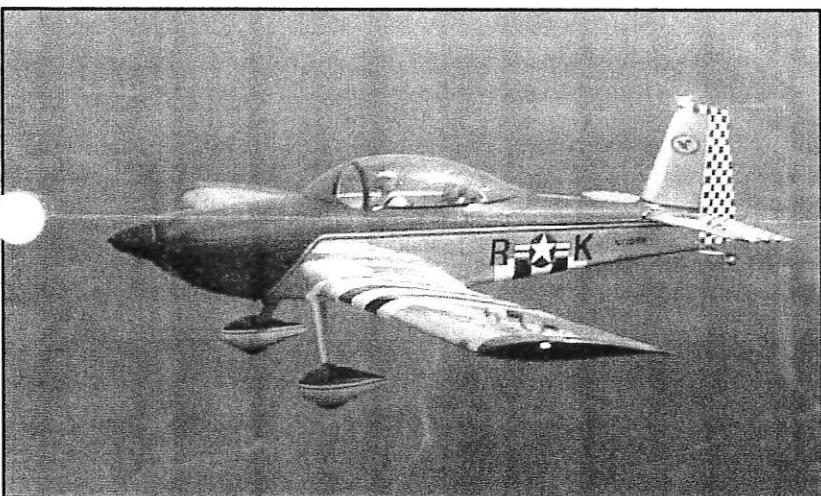

***5 new airplanes were completed and flown  
in the past 12 months!***

Darrell Frazier poses with his RV-6A. First flight was December 10, 2000. He still has the RV grin.

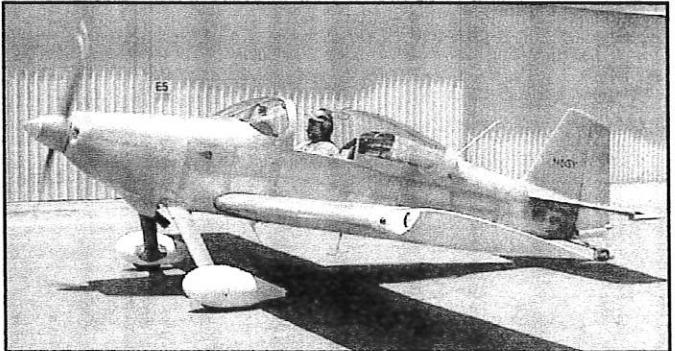

Eddie DeSha completed his Subaru powered J-3 Kitten (+10%), with the first flight March 31, 2001.

Dick Kardell completed his RV-8 and flew it for the first time in April 2001. This photo was taken by your NL editor during a photo flight in Darrell Frazier's RV-6, at our November 17th Fly-In. *Made my day!* Dick tells us a bit more about his project... The kit was delivered in February 2000, and took 1400 hours to complete, including paint. It has a Garmin 430, Narco 810, Garmin Transponder and a fuel panel. It obviously flies like advertised. I'm happy to share any knowledge with other builders about the RV 8.

Tom Lauterbach completed his CH-701 with FAA certification May 22nd and first flight May 26th.

Greg Young completed his RV-6 and flew it for the first time July 12, 2001.
